

ALLCapture™ 3.0

ALLCapture™ – professional real-time screen recording made easy!
- Version 3 revolutionizes screen recordings -

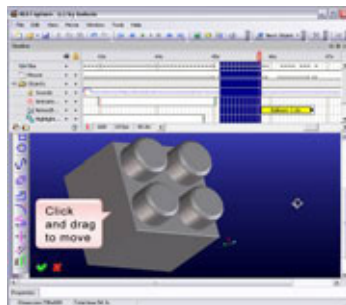

NEW! balesio presents **VERSION 3** of its screen recording software **ALLCapture**.

ALLCapture records any screen activity and creates in minutes internet ready screen movies, presentations, software simulations and tutorials!

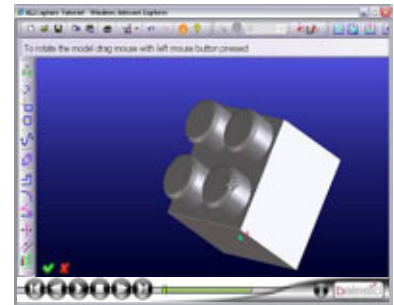

From recording to the finished video in **3** steps:

① RECORD SCREEN

② EDIT VIDEO

③ EXPORT & PUBLISH

ALLCapture records multiple soundtracks during or after video capture from microphones or recordings. After screen capture, users can edit their projects with speech bubbles, text objects, soundtracks and images, even spotlights and numerous other special effects. The intuitive timeline makes the editing process spectacularly easy.

Videos can then be exported to popular Internet formats such as Flash, EXE, ASF or as video files for DVD, SVCD or VCD.

NEW IN VERSION 3:

- ✓ Unlimited screen recording
- ✓ PowerPoint add-in converts presentations automatically into Flash
- ✓ Individual playback speed choice.
- ✓ Screen resizing; size your movie down to fit your iPod
- ✓ Zoom function
- ✓ Optimized for PCs with multi-core processors

ALLCapture 3.0 Enterprise: Recommended for advanced users and organizations and priced at only **289 USD / 165 GBP net** (single user license).

ALLCapture 3.0 is available for **129 USD / 65 GBP net** (single user license).

A free trial version without registration is available at www.ALLCapture.com/eng/download.php.
