

12/02/2009: balesio's new **FILEminimizer™ Office** now compresses all Office files by up to 98 % !

balesio introduces with **FILEminimizer Office** the successor of the popular **PPTminimizer**: The software now compresses Excel files and all new Office 2007 formats in addition to PowerPoint and Word files. The innovative optimization routine is able to reduce all Office files to a minimum of their original size, without changing the file format or altering the quality.

The benefits of having **FILEminimizer Office** are evident:

- § Optimized Office files can easily be sent via Email
- § Companies achieve enormous storage and cost savings for lower data transfer and disk space
- § Office users save a lot of time when working with large Office files and increase their productivity considerably

FILEminimizer Office optimizes all files in one of the following formats: .PPT, .PPS, .PPTX, .PPSX, .DOC, .DOT, .DOCX, .DOTX, .XLS or .XLSX. The program has 1-click optimization plug-ins for Outlook, Word, PowerPoint, Excel and Windows Explorer and is multilingual (English, French, German, Italian and Spanish).
